

## SPECIAL HELMET FOR ALAIN PROST AND RACE OF CHAMPIONS

The four-time world champion Formula 1 "Professor" Alain Prost, back on track in Düsseldorf for the mythical Race of Champions 2010; and in this occasion, will wear a Special Edition helmet painted by Kaos Design. A revisited Alain's design style, with luminescent areas, suitable for use at night and a specially text thought-tribute to the champion written for us by journalist Bernasconi Maria Vittoria, and directly painted on the helmet.

The Race of Champions will take place on 27 and 28 November in the stadium Esprit in Düsseldorf, where was built the first circuit in the world with parallel lanes joined via bridge. A jewel track where the show is insured and the bagarre at the highest levels.

This year, Alain Prost and the other champions will be able to beat the previous editions' winners?

We will see in Düsseldorf: we have already decided who support, dedicating to the great Alain a simple graphics and stylish, with technological details and innovative as the luminescent "way spots" and areas of color completely glitter.

Here below the tribute written on the helmet:

*Le rêve est un coup au coeur, une **vibration** dans la poitrine qui entre dans les  
poumons,  
puis s'irradie aux mains et aux pieds. La concentration s'unit à la concision:  
peu de paroles dans le casque, les muscles se raidissent,  
le corps s'écrase dans l'habitacle.  
Depuis 1971 il n'y a que quatre roues qui me guident.  
Cent-quatre-vingt-dix-neuf grand prix disputés,  
cinquante-et-une victoires et quatre titres mondiaux remportés.  
Et ce n'est pas encore assez.*
